

Future-Fit Partnerships

**Increase your impact,
accelerate global change**

Certified Practitioner

Enhance your understanding of how to make business fit for the 21st century.

Future-Fit Certified Practitioner short course

This course provides an introduction to how systems thinking can be applied to tackling our greatest environmental and social challenges. It explores the thinking behind the Future-Fit methodology and shows how the Business Benchmark can be used to help transform any business.

Who is this for?

This course is designed for organisations looking to upskill their people in the Future-Fit approach, as well as individuals who want to develop their own knowledge and capabilities independently. Whether rolling it out across a team, department, or entire workforce, or taking it as a stand-alone short course, it provides a structured, recognised learning pathway that builds capability from the ground up.

What's required?

To become a Future-Fit Certified Practitioner you must complete the following:

Complete Future-Fit training

by studying the Methodology Guide, the Implementation Guide and watching the training video.

Pass Module 1 of the Future-Fit Proficiency Test

to demonstrate your knowledge of the Methodology, how it works and how to apply it in business situations.
